Dear Beste,

Alpine- Tex is located in Tetovo, Macedonia. We are a manufacturer that provides total solution from the desired design to the output of the product.

So in this case we are looking for a raw material and hoping that you can help and provide it for us. It is cotton woven pattern inside slightly brushed and the amount we are looking for is 4000- 40000 meters. We want to get in touch with several Turkish companies that will be able to produce this kind of material for us, and export it to Macedonia.

To get into more details, find attached the picture of the shirt what our customer is interested for.

Regards, Sadik. A
