The Group is comprised of ten member companies, which are interlinked into one business system. About Victoriaoil: The primary activity of the Victoriaoil is production of raw and refined oils, biodiesel and protein meal. Our factory processes combined about 320.000 tons of seed annually: over 220,000 tons of sunflower seed, 70,000 tons of soybean and 30.000t of rapeseed. The processing technology allows complete flexibility of the oil crop refining production process. Victoriaoil also has a cutting edge plant for bottling and packaging edible oil with a capacity of 300,000 litres per</p>	<p>wholesale companies for sale and distribution of edible oils and/or protein meals.</p>	<p>INDUSTRY</p>
