24	Bioveta, a.s.		Ing. Lenka Kachlíková	Country Manager	The joint-stock company Bioveta maintains the position of the most significant manufacturer of veterinary, immunobiological and pharmaceutical products in the Czech Republic. The portfolio of the company Bioveta, a.s. includes 150 kinds of products that are designed for the diagnosis, prophylaxis and treatment of both pets and farm animals. The assortment also includes products determined for basic zoo hygienic and cosmetic treatment of pets. The primary production programme is extended by contract manufacturing for domestic and foreign customers. The greatest volume of these services has been reached by in-house formulation and filling of sterile injectables, mainly antibiotics, combined vitamin products and chemotherapeutics. Bioveta, a.s. is considered to be the one of the leading companies in the field of hormones and vaccines against rabies and dermatophytosis. Bioveta company sells its products not only on the Czech market but also exports them to more than 80 countries of Europe, Asia, Africa, Americas and Australia, which provides business and financial stability for the company. The products may be divided according to their character and use into the following independent groups: - analeptics, anti-anaemics, antimicrobials, antiparasitics, antisera and globulins, dermatological products, diagnostic products, hormones, mineral feed additives, probiotics, vitamins, vaccines.	We are looking for potential new distributors or partners for joint participation in state tenders. Currently Bioveta has two distributors in Turkey (Intermed Ltd. since r. 1998 and Doğan İlaç Ltd. since. R. 2013) However, we don't request their participation.	<a href="http://www.bioveta.cz/en">www.bioveta.cz/en</a>
