

The Expo is our own way of supporting Federal Government's laudable initiatives in Investment Promotion, Affordable Housing Provision, Job Creation and general Economic Development through private sector participation. The three previous editions recorded impressive success and attracted many sponsors, exhibitors and participants across both private and public sectors from within and outside the country. Also, through the expo, we have continued to advocate better collaboration between public and private sector operators while urging the government to vigorously pursue more investment friendly policies that can attract more investments into the country.

Following from the programmes, we have been able to convince more foreign and indigenous investors to invest in the country and have started campaigns for local production of building materials while also canvassing for the provision of construction and mortgage financing at more affordable rates. We have also commenced training programmes for artisans while encouraging different groups and associations to form cooperative societies so they can participate and benefit more from the various government economic development programs.

This 4th Edition which is again enjoying the support and co-operation of some key public and private sector organizations will also feature products Exhibition, B2B meetings, Business Forums and Skill Acquisition Programs, and we have no doubt that it will even be more successful.

A program like this, you will agree, is most appropriate now especially in the face of our dwindling oil revenue which has further emphasized the need for economic diversification, and we trust you will extend to us your usual good will and support.

Attached for your kind attention is our bulletin showing the various sponsorship categories with corresponding benefits, privileges and costs as well as rates for our exhibition booths and adverts.

Please accept the assurances of our best regards and compliment, while we await your kind positive response.

Thank you.

Sincerely Yours,

Somadina Johnson Anene
