

The Government of Colombia is modernizing its ICT sector and conducting the 700MHz band auction

ProColombia and the Ministry of Information and Communication Technologies (MINTIC) invite you to learn about the Government's structural modernization plans to close the digital gap in Colombia through encouraging investment and fostering market competition.

The event will showcase the opportunities that will become available with the IMT spectrum in the 700MHz and 1900MHz bands auction.

SPEAKERS

IVÁN A. MANTILLA GAVIRIA
Vice Minister of Connectivity
and Digitalization

JORGE BARRERA
