OPERATION PLANT LOMAS DE NÍQUEL

Company: Planta de producción de Ferroníquel, de la Corporación Venezolana de Minería.

It comes in the form of blasts, with a size of 2 to 50 millimetres. This valuable steel alloy is primarily aimed at:

- ✓ Production of a wide range of stainless steels.
- ✓ Contribute to the washing in the production of special steels.

**Final Product
Ferroníquel
(FeNi)**
