Halil İbrahim Karataş  
Commercial Counsellor  
Embassy of the Republic of Türkiye  
197 Wurttemberg Street  
Ottawa, ON K1N 8L9

December 2, 2025

Dear Halil İbrahim Karataş,

On December 1, 2025, the Canadian International Trade Tribunal (CITT), pursuant to subsection 76.03(1) of the Special Import Measures Act (SIMA), initiated an expiry review of its order made on December 30, 2020, in Expiry Review No. RR-2019-006, concerning the dumping of certain oil country tubular goods originating in or exported from the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (Chinese Taipei), India, Indonesia, South Korea, Thailand, Türkiye, Ukraine and Vietnam (subject goods), except for goods exported from South Korea by Hyundai Steel Company, and goods exported from Türkiye by Borusan Mannesmann Boru Sanayi ve Ticaret A.Ş.

As a result of the CITT's expiry review, the Canada Border Services Agency (CBSA) has today initiated an expiry review investigation to determine, pursuant to paragraph 76.03(7)(a) of SIMA, whether the expiry of the order is likely to result in the continuation or resumption of dumping of the subject goods. The CBSA will make a determination no later than April 30, 2026, and will issue a *Statement of Reasons* by May 15, 2026.

The product definition and the applicable tariff classification numbers of the goods subject to the CITT's order are accessible on the CBSA's [Measures in force](#).

If the CBSA determines that the expiry of the CITT's order is not likely to result in the continuation or resumption of dumping of the subject goods, the order will be rescinded and all duties paid in respect of goods that were released after the date that the order was scheduled to expire will be returned to the importer. If the CBSA determines that the expiry of the order in respect to any goods is likely to result in the continuation or resumption of dumping of the goods, the CBSA will provide the CITT with its administrative record. The CITT will then conduct an expiry review to determine if the rescission of the order is likely to result in injury or retardation and will issue its order within 160 days after the day on which the CBSA's determination is received.

.../2

You are invited to visit the [CBSA's website](#) to view the Notice of Initiation of Expiry Review Investigation as well as the schedule of this expiry review investigation. The website will be updated when new information becomes available.

As part of its expiry review investigation, the CBSA is requesting information from exporters and producers of the subject goods in your country. The information required from exporters and producers is detailed in the questionnaire enclosed with this letter. The information provided to the CBSA will be used to determine if the expiry of the order is likely to result in the continuation or resumption of dumping of the goods.

The CBSA has a new [Anti-dumping and Countervailing E-filing \(ACE\) Web Application](#). The ACE web application is a 24/7 digital self-service tool for complainants, counsel, or other interested parties involved in proceedings under the SIMA. For instructions on filing submissions with the new ACE web application, please review the Expiry Review Questionnaire for instructions.

Should you have any questions pertaining to this expiry review investigation, please contact Terence Fernandes at 343-553-1463 or by email at [Terence.Fernandes@cbsa-asfc.gc.ca](mailto:Terence.Fernandes@cbsa-asfc.gc.ca).

Yours truly,

Sean Borg  
A/Executive Director  
Trade and Anti-dumping Programs Directorate
