

CBSA EXPIRY REVIEW QUESTIONNAIRE EXPORTER AND FOREIGN PRODUCER

Information requested under
the *Special Import Measures Act* respecting

**CERTAIN OIL COUNTRY TUBULAR GOODS ORIGINATING IN OR EXPORTED
FROM THE SEPARATE CUSTOMS TERRITORY OF TAIWAN, PENGHU, KINMEN
AND MATSU (CHINESE TAIPEI), INDIA, INDONESIA, SOUTH KOREA, THAILAND,
TÜRKIYE, UKRAINE AND VIETNAM**

PURPOSE The purpose of this Expiry Review Questionnaire (ERQ) is to elicit information from your company that will be used by the Canada Border Services Agency (CBSA) to determine whether the expiry of the order issued by the Canadian International Trade Tribunal (CITT) on December 30, 2020, in Expiry Review No. RR-2019-006 is likely to result in the continuation or resumption of dumping of the goods noted above (subject goods).

**PERIOD OF
REVIEW** January 1, 2022 to September 30, 2025

**HOW TO PROVIDE
YOUR RESPONSE** Your complete response to this questionnaire must be filed through CBSA's Anti-dumping and countervailing E-Filing (ACE) Web Application. Further information is provided in the instructions section below.

**DUE DATE FOR
RESPONSE** Your complete response to this questionnaire must be filed by **January 8, 2026 at 5:00 pm ET.**

**FOR FURTHER
INFORMATION** Contact the following CBSA officers:

Joël Joyal Joel.Joyal@cbsa-asfc.gc.ca

Gillian Forbes Gillian.Forbes@cbsa-asfc.gc.ca

IMPORTANT NOTE: Information provided by your company is deemed to be public unless clearly marked 'Confidential.' See Item 2 in the *Instructions* section of this questionnaire for further information.

INFORMATION

1. Product Definition

For purposes of this expiry review investigation “certain oil country tubular goods” are defined as:

Oil country tubular goods, which are casing, tubing and green tubes made of carbon or alloy steel, welded or seamless, heat-treated or not heat-treated, regardless of end finish, having an outside diameter from 2 ¾ inches to 13 ¾ inches (60.3 mm to 339.7 mm), meeting or supplied to meet American Petroleum Institute (API) specification 5CT or equivalent and/or enhanced proprietary standards, in all grades, excluding drill pipe, pup joints, couplings, coupling stock and stainless steel casing, tubing or green tubes containing 10.5 percent or more by weight of chromium, originating in or exported from Chinese Taipei, India, Indonesia, South Korea, Thailand, Türkiye, Ukraine and Vietnam, except for goods exported from South Korea by Hyundai Steel Company, and goods exported from Türkiye by Borusan Mannesmann Boru Sanayi ve Ticaret A.Ş.

The specific inclusions and exclusions to the product definition of the goods subject to the CITT’s order and the tariff classification numbers can be found on the CBSA’s [Measures in force](#).

2. Who Must Complete the Attached Questionnaire

If your company exported subject goods (certain oil country tubular goods) to Canada, or if your company produced subject goods which were exported to Canada by another party during the period of **January 1, 2022 to September 30, 2025**, your company is required to complete the following items and provide them to the CBSA as specified on the cover page by **January 8, 2026**:

1. the attached Expiry Review Questionnaire
2. the attached Designation of Confidential Information
3. the attached Certificate of Veracity, Accuracy and Completeness
4. the attached Checklist

If your company did not produce or did not export subject goods to Canada or produce such goods which were exported to Canada by another party during the period of **January 1, 2022 to September 30, 2025**, please provide a written statement to this effect to the officers listed on the cover page of this questionnaire.

3. Parts of the Questionnaire

Title	Description
Information	Information on the goods covered by the expiry review investigation and information explaining this document.
Instructions	Instructions explaining how to reply to the attached questionnaire, Designation of Confidential Information, and Certificate of Veracity, Accuracy and Completeness.
Glossary of Terms	Definition of certain terms used in this document.

Questionnaire	Requests information required by the CBSA to determine if the expiry of the order is likely to result in the continuation or resumption of dumping.
Designation of Confidential Information	A statement to be signed by your company and pertaining to the nature of information you wish to designate as confidential and reasons why you request that the information be treated confidential.
Certificate of Veracity, Accuracy and Completeness	Pertains to certification of the responses to this questionnaire and submitted to the CBSA.
ERQ Checklist	A checklist to ensure that all items relating to confidential information has been completed.

4. Request for Additional Information

The CBSA may contact you to discuss your response to this questionnaire and to request additional information.

5. Verification Meetings

The CBSA may wish to verify the information submitted by meeting with officials from your company at your premises. You will be contacted to make arrangements as to the time and place of the verification meeting. The CBSA may require additional information at that time.

6. Information Submitted to the CBSA

Information submitted to the CBSA will be provided to the CITT following the President's determination whether the expiry of the order is likely to result in the continuation or resumption of dumping of the goods.

INSTRUCTIONS

Submitting a response to a CBSA Questionnaire

1. The Canada Border Services Agency (CBSA) has an Anti-dumping and Countervailing E-filing (ACE) Web Application. The ACE Web Application is a 24/7 digital self-service tool for complainants, counsel, or other interested parties involved in proceedings under the *Special Import Measures Act* (SIMA).
2. With the new ACE Web Application, once users have registered for an account, they can easily electronically submit and access information related to anti-dumping and countervailing duty proceedings that have been initiated by the CBSA.
3. The web application is accessible from the CBSA's [Anti-dumping and countervailing](#) website.
4. Hardcopies (paper), USB keys or CD submissions will not be accepted.
5. Use the YYYY-MM-DD format for all dates. For example, write October 23, 2024 as 2024-10-23.
6. Narrative or text responses must be provided in Microsoft Word compatible format. Spreadsheets or data responses must be provided in Microsoft Excel compatible format. Files may be submitted in a compressed ZIP format, but not RAR.
7. Your response must state each numbered question followed by a complete response. If a question does not apply to your company or requests information in a format that is different than that in which it is maintained, an explanation as to why the question does not apply or how the information was adjusted to respond to the question is required.
8. Your response must be in either English or French. Any source material that you provide must be in the document's original language and must be accompanied by a translation in either English or French.

Electronic naming requirement to upload documents

9. Please ensure that the filename contains the word *public, publique, non-confidential, non confidentiel, protected, protégé, confidential* or *confidentiel*. Otherwise the document will not be added to the list of files.
10. Filenames which include a full stop (".") cannot be added to the list. This restriction applies only to the selected electronic filename and not the file extension, e.g.. .pdf, .doc, etc.

Size limits and acceptable file types

11. Users can upload a maximum of 500 files per submission
The size limit for each file is 1 GB
Total submission size limit is 4 GB
The daily upload limit per user is 50 GB

The daily limit is for all submissions on all proceedings and resets after 24 hours

12. The acceptable file types are: .pdf, .mp3, .wav, .bmp, .gif, .png, .xls, .xlsx, .xlsm, .csv, .msg, .doc, .docx, .docm, .ppt, .pptx, .pptm, .vsd, .txt, .xml, .jpeg, .jpg, .zip
13. You can also upload media files in a compressed .zip format, if needed, however, to ensure a smooth and secure upload process, follow these best practices:
 - Do not include nested zip files and avoid long file paths
 - If you need to organize content, use folders within a single zip file and keep folder structure simple and concise
 - Do not password-protect or encrypt any files or folders

Submissions that do not comply with these guidelines will be rejected by the CBSA due to security protocols.

14. **Important:** Larger files will take longer to fully upload. You can monitor the progress of uploads in real-time through the progress bar under each file. Users **must wait** until a file reaches 100% to continue.
15. For further information about the requirements for making a submission or downloading information through the ACE Web Application, please consult the [Anti-dumping and countervailing e-filing web application user guide](#) or contact us at: [CBSA-ASFC_SIMA_Registry-Depot_LMSI](#).

Treatment of Confidential and Non-Confidential Information

Submitted to the CBSA for all Proceedings under SIMA

NOTE: Please use the following hyperlink to access [Confidentiality and Disclosure Guidelines for SIMA Proceedings](#). You may also locate supporting documents in the [Counsel's Toolkit](#).

Why Provide Confidential and Non-Confidential Information?

The *Special Import Measures Act* (SIMA) requires that confidential information submitted to the CBSA be accompanied by a non-confidential (public) version of the information. The following explains how non-confidential and confidential information will be handled and how to prepare both a confidential and non-confidential submission of your information.

Treatment of Your Non-Confidential Information

Your non-confidential information will be given to any party that asks for this information for the purposes of the proceeding.

Treatment of Your Confidential Information

There are certain times when the CBSA will release your confidential information: first, to independent counsel for a party to the proceeding; and second, to Canadian courts, tribunals and panels.

1. Confidential information will be provided to independent counsel for a party to the proceeding.

Counsel includes any person, other than a director, servant or employee of the party, who acts in the proceedings on behalf of the party, not limited to legal counsel. A **party** is a person, or business, that participates in and has a direct interest in the proceeding.

Counsel must ask for the confidential information in writing and must provide a written guarantee to the CBSA stating that they will:

- only use the information in relation to this proceeding;
- not distribute the information;
- protect the information;
- destroy the information within the earlier of 45 days of the completion of a SIMA proceeding, or within 30 days of the end of their participation in a proceeding;
- provide the CBSA with a written notice that the information is destroyed; and
- report any violations or possible violations to the CBSA.

The CBSA will not give your confidential information to independent counsel if the CBSA believes that it might cause harm to you or your business.

- Confidential information will be given to the Canadian International Trade Tribunal, any Court in Canada, a Binational or World Trade Organization (WTO) Panel, to act on appeals. These organizations will use your information to fulfill their responsibilities under Canadian law, CUSMA or WTO Agreements. The confidential information is subject to the rules of procedure of the Court or Panel to which it is provided.

Providing Only Non-Confidential Information?

If you decide that your reply to this ERQ does not contain confidential information, every page of your reply should be marked "NON-CONFIDENTIAL". You must make a statement, in a covering letter, that you do not consider any information in your submission to be confidential.

Providing Confidential Information?

If your reply to this ERQ contains confidential information, this reply, along with all of the attachments and supporting documents, will be your confidential submission. In the confidential submission, you must:

- Clearly identify confidential information by enclosing it within [square brackets] and **highlighting** all confidential information therein; and
- Clearly mark every page of the confidential submission as "CONFIDENTIAL" , including all attachments.

The following example would be considered as an acceptable confidential version:

The selling price of product ABC to our Canadian distributor was US\$[25.99] per unit.

NOTE:

The highlighted text must clearly be legible.

Please ensure that the highlight does not render the text undecipherable when the information is converted electronically to PDF format.

In some cases (e.g. appendices and excel data), simply highlighting the confidential information, without the use of brackets, will be considered sufficient. To this effect, the following example represents an acceptable confidential version of a listing of export sales to Canada.

1	2	3	4	5	6	7
IMPTR	DATSHIP	INVNUM	INVDAT	QUANTITY	EXTSP	NETSP
XX Inc.	2022-02-16	14064555	2022-02-16	500 MT	\$500,000	\$450,000
YY Inc.	2023-03-14	14179020	2023-03-12	250 MT	\$225,000	\$202,500
ZZ Inc.	2024-04-14	14253018	2024-04-16	300 MT	\$330,000	\$297,000

Further, in order for submissions containing confidential information to be accepted as exhibits and taken into consideration by the CBSA, a "Designation of Confidential Information" must be on record with the CBSA regarding the subject proceeding, and a non-confidential version of the information must be provided in each instance.

1. Designation of Confidential Information

When you provide confidential information for the first time in respect of a SIMA proceeding, a “Designation of Confidential Information” must be submitted to the CBSA. Here, you must identify the nature of the information you wish to designate as confidential, and provide reasons why you request that the information be treated as confidential. For your reference, a template of such designation is attached to this section.

2. Non-confidential Version

The non-confidential version is a public version of the same document with the confidential information removed. However, it must contain sufficient detail to enable readers to understand the nature of the submitted information, as they are provided to other parties involved in this proceeding and members of the public upon request.

A non-confidential version may be submitted either as a **bracketed version**, or as a **summary**, as described below:

[Non-confidential Bracketed Version]

This is a duplicate of the confidential version with all confidential information removed. The parts where confidential information was deleted should clearly be identified in square brackets and highlighted.

As an example, the following would be considered as an acceptable non-confidential bracketed version:

The selling price of product ABC to our Canadian distributor was US\$[] per unit.

NOTE:

The spacing between the brackets [] should reflect the same spacing as in the confidential version.

Do not use “shading”, “font colors” or any other type of masking to hide confidential information in the non-confidential version. You must delete (remove) the confidential information in the non-confidential version.

Please also note that as per the earlier instruction, the non-confidential information must still indicate the nature of the deleted information, which in this case, is the selling price information.

In some cases (e.g. appendices and excel data), it will be considered sufficient to simply remove the confidential information, and not use brackets or highlights to identify parts where confidential information had been deleted. A sample page for a multi-page listing could look like this:

1	2	3	4	5	6	7
IMPTR	DATSHIP	INVNUM	INVDAT	QUANTITY	EXTSP	NETSP

	2022-02-16	14064555	2022-02-16			
	2023-03-14	14179020	2023-03-12			
	2024-04-14	14253018	2024-04-16			

[Non-Confidential Summary Version]

Where deleting information for a non-confidential bracketed version would not leave enough detail to provide an understanding of the confidential information removed, a non-confidential summary of the deleted information must be included, describing the confidential information that has been removed, the name of the party and the reason why the information must remain confidential.

Review of Non-Confidential Submission

The non-confidential version of your submission will be reviewed by the CBSA to ensure that it is in sufficient detail to convey a reasonable understanding of the substance of the information submitted in the confidential version.

If CBSA determines that an adequate non-confidential bracketed version or a non-confidential summary of information designated as confidential has not been provided by the respondent, and the respondent fails to justify why it cannot be provided, does not withdraw the designation, does not take corrective action or does not submit a revised version, the CBSA will **NOT** use the confidential information provided by your organization in the proceedings. As a result, the CBSA's determination will be based on the best information available. It is imperative that companies delete only the minimum information necessary to protect their interests and only what is confidential.

Designation of Confidential Information

When you provide confidential information for the first time in respect of a SIMA proceeding, a signed and completed [Designation of Confidential Information](#) must be submitted to the CBSA. Here, you must identify the nature of the information you wish to designate as confidential, and provide reasons why you request that the information be treated as confidential. This document is non-confidential and should not include any confidential information. It will be included in both versions of your submission.

Certificate of Veracity, Accuracy and Completeness

A signed [Certificate of Veracity, Accuracy and Completeness](#) is required to along with your response. This certificate should be reproduced and signed on your company letterhead. This document is non-confidential and should not include any confidential information. It will be included in both versions of your submission.

Independent Counsel

If your company retains independent counsel to represent you in this matter, please provide a [Letter of authorization](#) to the CBSA, including authorization to discuss with and to release to your independent counsel any confidential information that you have submitted and particulars of your file. Please be advised that confidential information submitted by other parties to the proceedings will be disclosed only to independent counsel. Therefore, letters of representation should be provided as soon as possible so that your independent counsel may access confidential information submitted by other parties.

GLOSSARY OF TERMS

The following definitions may assist you in responding to this questionnaire.

Associated Persons and/or Companies: Persons or companies that are related to each other or do not deal with each other at arm's length. For example, individuals related by blood, marriage or adoption or companies that are directly or indirectly controlled by the same person or by the same company. See "*related*."

Beginning Inventory: The total quantity of inventory on-hand at the beginning of each period.

Capacity Utilization Rate: Indicate the capacity utilization rate for the production of certain oil country tubular goods. Capacity utilization rate for purposes of this questionnaire is the actual production of certain oil country tubular goods for each period divided by the total plant capacity available for production of certain oil country tubular goods and other products, expressed as a percentage.

Cost of Sales: The total cost of products sold in the indicated market for each period, including costs of production and any other costs or expenses relating to the production or sale of the goods. Do not include internally transferred goods in the amounts.

Delivery Cost: The average delivery costs (freight, handling, insurance), by market for each period, whether incurred by your firm and included in the selling price or incurred separately by the purchaser and estimated when the goods are purchased on an FOB or ex-factory basis, expressed as a percentage of the ex-factory or FOB value of the market sales.

Domestic Market Sales: The total quantity of certain oil country tubular goods (like goods) sold in your domestic market for each period. Do not include internally transferred goods in the amounts.

Ending Inventory: The total quantity of inventory on-hand at the end of each period.

Period of Review (POR): The Period of Review for the CBSA's expiry review investigation is January 1, 2022 to September 30, 2025.

Related: For the purposes of defining *associated persons*, persons are related if:

- they are connected by blood relationship;
- one is an officer or director of the other;
- each such person is an officer or director of the same two corporations, associations, partnerships or other organizations;
- they are partners;
- one is the employer of the other;
- they directly or indirectly control or are controlled by the same person;
- one directly or indirectly controls or is controlled by the other;
- any other person directly or indirectly owns, holds or controls 5% or more of the outstanding voting stock or shares of each such person; or

- one directly or indirectly owns, holds or controls 5% or more of the outstanding voting stock or shares of the other.

Sale: A sale is an exchange of goods, property or services for an agreed sum of money or credit. A sale includes leasing and renting, an agreement to sell, lease or rent and an irrevocable tender.

Sales Value: The ex-factory or FOB sales value for each period. The ex-factory or FOB sales value is the selling price to your purchaser net of cash, quantity and deferred discounts, allowances, rebates and taxes. It excludes delivery costs (freight, handling and insurance) paid by your firm and included in the selling price. Do not include internally transferred goods. For export sales, report the ex-factory or FOB total sales value in the currency used for export sales.

Total Production Capacity: The greatest level of output from the machinery and equipment used in the production of certain oil country tubular goods that your plant(s) can achieve on a continuous basis within the framework of a realistic work pattern. Consideration should be given to the typical product mix, number of shifts per day, annual operating days, etc., experienced during each period.

Trade Level: The trade level which a company occupies in the distribution chain for oil country tubular goods. The predominant determining factor in establishing the trade level of an entity is the trade level to which that entity in turn sells the goods. The activities that the entity carries out may also help in distinguishing the trade level. Examples of typical trade levels are, in descending order, producer, broker, trader, national distributor, regional distributor, wholesaler, retailer, mass merchandiser, OEM, contractor, end user, etc.

QUESTIONNAIRE

Complete and submit all questions in this section as well as the *Designation of Confidential Information*, the *Certificate of Veracity, Accuracy and Completeness*, and the *Request for Information Checklist* found at the end of the Questionnaire. You are not required to submit the pages prior to this point in your submission. When you complete each appendix requested in the questions, please use the respective Microsoft Excel file as a template.

- Q1.** Provide your company's complete name, mailing address, website address and telephone number.
- Q2.** Provide the name and position of the officer in your company responsible for your response to this questionnaire along with this person's email address and telephone number.
- Q3.** Indicate if your company exported subject goods (certain oil country tubular goods) to Canada or if your company produced such goods which were exported to Canada by another party in 2022, 2023, 2024, and January 1, 2025 to September 30, 2025, and indicate which of these years your company did so.
- Q4.** Provide the names and addresses of any other locations, facilities and outlets on behalf of which your company is responding to this questionnaire, and identify the product lines produced at each.
- Q5.** If your company is a subsidiary of another company, indicate the name and address of your parent company and the extent of ownership in your company.
- Q6.** Provide a list of the names and addresses of each *associated company* that is involved in the production, sales, export, import, or supply of raw materials, or the purchase of certain oil country tubular goods. Indicate the responsibilities or functions carried out by each *associated company* in respect of the goods.
- Q7.** Explain the nature of the business performed and the responsibilities or functions carried out by each *associated company* in respect of the goods.
- Q8.** Provide the details of any change in the majority ownership structure of your company during the last fiscal year and during this fiscal year-to-date. In addition, provide details of any ownership change or any other changes that have affected your costing, selling, pricing and distribution practices during the *period of review*.
- Q9.** Describe the nature of your company's business and explain whether you are a producer, trading/sales organization, distributor, etc.
- Q10.** Provide a brief history of your company with particular emphasis on certain oil country tubular goods. The history should include the date of incorporation, corporate structure, and the date that your company first produced or sold oil country tubular goods.
- Q11.** Provide a list of all product lines produced by your company (i.e., certain oil country tubular goods and other products).

- Q12.** List the location(s) of your production facilities and identify the product lines produced at each.
- Q13.** Identify any of your facilities that are not presently producing certain oil country tubular goods but which are capable of producing certain oil country tubular goods.
- Q14.** List any new facilities that your company opened which produce or are capable of producing certain oil country tubular goods or any significant asset acquisitions related to the production of certain oil country tubular goods during the *period of review*.
- a. List the plant or major asset concerned and the date, location and reasons for the addition.
 - b. Report the effect, in percentage terms, the addition has had on production capacity for certain oil country tubular goods.
 - c. Report any other significant changes made by your company related to the production of certain oil country tubular goods. Describe the change and the reasons for the change.
- Q15.** Report your company's plans to make additions to plant capacity through new factories or asset purchases related to the production of certain oil country tubular goods. Explain the addition and the planned date, location and reason for the addition. Indicate the estimated effect, in percentage terms, the planned addition will have on production capacity for certain oil country tubular goods.
- Q16.** Report any significant changes introduced by your company during the *period of review* such as new plant layout, new equipment, new production processes, marketing arrangements, etc. Indicate the type of change, the date, the location and the reasons for the change.
- Q17.** Report any changes to your company's product mix of oil country tubular goods that it produced or exported during the *period of review* (e.g. product categories, product type, quality, style, size, etc.). Explain the reasons for the changes.
- Q18.** Report any permanent closures or disposals of production facilities or factories producing certain oil country tubular goods by your company since January 1, 2022. In addition, report the disposal of any significant assets related to the production of certain oil country tubular goods during the *period of review*. Indicate the factory or major asset concerned and the date, location and reasons for the closure or disposal.
- Q19.** Describe your company's channels of distribution for your domestic sales and export sales of certain oil country tubular goods. If these channels changed during the *period of review*, describe the changes and the reasons for the change.
- Q20.** Report your company's plans to significantly change your channels of distribution for certain oil country tubular goods and explain the change and the reasons for the change.

- Q21.** Provide copies of all price lists, price schedules, base price lists, discount schedules, etc., applicable to your sales of certain oil country tubular goods for the *period of review* for each of your company's domestic and export markets. Explain any product codes or other codes appearing on these documents so as to permit a full understanding by the CBSA.
- Q22.** Explain how any terms, discounts, allowances and other considerations of your company had the effect of reducing the prices that appear on your price lists.
- Q23.** If your company does not use price lists, describe how prices are determined. Provide a detailed schedule showing each price change for certain oil country tubular goods during the *period of review* and the effective dates of the price changes.
- Q24.** Provide details of the terms of sale and delivery of your company that apply to your domestic market and the Canadian market, and fully explain what each of these terms means to your company (e.g. F.O.B., ex-factory, C.I.F., delivered, etc.).
- Q25.** Describe your marketing practices for certain oil country tubular goods. Explain any changes in your methods during the *period of review*. If your methods vary for domestic and export sales, please explain.
- Q26.** If your company has any plans to change your marketing and sales practices for certain oil country tubular goods in the period from **2025 to 2029**, explain such plans and reasons for the changes.
- Q27.** Provide a copy of the latest brochures, corporate publications, or any other such general literature concerning your company and products sold or produced both in your domestic market and in export markets.
- Q28.** Provide copies of the following reports:
- a. Your company's last three annual reports and all year to date (e.g., monthly, quarterly) reports filed with the relevant agency charged with the regulating and control of public companies in your country;
 - b. Your company's most recent annual and year to date subsidiary, divisional or operational financial statements for each entity engaged in the production and/or sale of oil country tubular goods; and
 - c. Your company's most recent annual and year to date product specific income statements (or profit and loss schedules) for sales of certain oil country tubular goods. If such a statement does not exist, provide the income statement or profit and loss schedule for the narrowest range of products which includes certain oil country tubular goods. The relevant statement or schedule should be provided for each of the production facilities or factories where the goods are produced.

- Q29.** Provide copies of your company's reports with any agency, board, commission or organization responsible for the regulation of publicly traded securities, if applicable.
- Q30.** List the names and addresses of all parties involved in the sales transaction to the Canadian importers of your company's sales of certain oil country tubular goods in the *period of review*, whether exported or shipped directly by your company or by another exporter.
- Q31.** Please identify any Canadian importers with which your company maintains an ongoing commercial relationship, either with respect to certain oil country tubular goods or other products.
- Q32.** Report the quantities (metric tonnes) of any end-of-period inventories of certain oil country tubular goods your company maintained in Canada during the *period of review* (not including any inventories held by any of the importers of certain oil country tubular goods) for each year of the *period of review*.
- Q33.** Report any negotiated annual or quarterly contracts that include selling prices for the period from **2025 to 2029**. Provide a summary listing with terms and pricing information.
- Q34.** Describe the trends expected in your company's domestic sales of oil country tubular goods for the period from **2025 to 2029** in relation to market demand and prices. Explain what is expected to happen to prices, capacity utilization, and profits for the period from **2025 to 2029**.
- Q35.** List your export markets for oil country tubular goods and describe the trends in and the state of each of these markets during the *period of review* in relation to total market sales volumes, demand, prices and profits. List the factors which have resulted in the noted trends, for instance, decreasing demand may have been caused by a number of factors including economic conditions, raw material prices or substitutable products.
- Q36.** Describe the trends your company expects for its exports of certain oil country tubular goods for the period from **2025 to 2029**. Explain which countries which will be your company's key export markets, the expected trends in total market demands and prices, and the underlying factors which are expected to cause the trends.
- Q37.** Provide copies of your most current business plans for the period from **2025 to 2029** for Canada and your company's other export markets for certain oil country tubular goods.
- a. Include any demand and price forecasts for the Canadian and other export markets.
 - b. Include plans and forecasts setting out your company's strategies and objectives for the items listed below. In addition, provide the rationale and assumptions underlying these forecasts and plans and indicate whether they were prepared internally or by an outside consultant.
 - production;
 - market size and growth;
 - domestic sales from domestic production and imports;

- export sales;
- change in the product mix of production and sales;
- market shares for your company;
- other producers in your country;
- importers in foreign markets;
- price levels;
- financial performance; and
- capacity and utilization levels.

Q38. Describe the trends in and the state of the market for oil country tubular goods in your country during the *period of review* in relation to total market volumes, prices, demand, capacity utilization and profits. List the factors which have resulted in the noted trends, for instance, decreasing demand may have been caused by a number of factors including economic conditions, raw material prices or substitutable products.

Q39. What percentage of your company's total sales in the most recent fiscal year was represented by sales of certain oil country tubular goods?

Q40. Estimate your company's percentage share of your country's total domestic sales of certain oil country tubular goods for the *period of review*. Please explain the basis for your estimate and provide copies of any published sales data which supports your estimate.

Q41. Estimate your company's percentage share of your country's total exports to Canada, in value and volume, of certain oil country tubular goods for the *period of review*. Please explain the basis for your estimate and provide copies of any published production or sales data which supports your estimate.

Q42. Report your company's capacity, as well as your actual production of oil country tubular goods during the *period of review* in **Appendix 1**.

Q43. Indicate the operating hours per week, and the operating weeks per year on which the reported capacity in **Appendix 1** is based.

- Provide a detailed explanation regarding how your company determined its plant capacity and utilization rate as reported.
- List any other products that can be produced with the same machinery and equipment used in the production of certain oil country tubular goods.
- If the machinery and equipment used in the production of certain oil country tubular goods is also used for the production of other products, report your company's production of these other goods for the *period of review* in **Appendix 1**. In addition, indicate the operating hours per week, and the operating weeks per year on which the reported capacity is based. If applicable, your response to this question should also cover any other machinery and equipment capable of producing certain oil country tubular goods.

- Q44.** List any government authority or industry association etc. to which you report your production capacity and provide a copy of your most recent report.
- Q45.** Report your company's total volume of production, imports, exports, sales and inventory for certain oil country tubular goods for the *period of review* in **Appendix 2**.
- Q46.** Report your company's total volume and value of sales and selling prices of certain oil country tubular goods for the *period of review* in **Appendix 3**.
- Q47.** Report your company's total cost of sales and cost of sales for certain oil country tubular goods for the *period of review* in **Appendix 4**.
- Q48.** Identify the major cost components of the cost of sales of certain oil country tubular goods and identify the factors which will have an impact on these costs and the expected trend for each factor identified.
- Q49.** List any anti-dumping and/or countervailing investigations initiated by countries other than Canada during the last five years respecting products exported or produced by your company. Where applicable, provide the product covered by the investigation, the country that investigated exports from your company, and indicate whether or not the investigating authority determined that the goods were being dumped.
- Q50.** List any anti-dumping and/or countervailing investigations presently in effect on products exported or produced by your company, which were initiated more than five years ago.
- Q51.** Identify any countries that have imposed safeguard actions (i.e., import restrictions, quotas, etc.) on products exported or produced by your company, and provide details respecting these restrictions or quotas.
- Q52.** Provide any other information or documentation which in your opinion is relevant to this expiry review which you wish to have taken into consideration by the CBSA. In your response to this question, you are encouraged to submit any other information which you believe supports your position with respect to the likelihood of continued or resumed dumping should the order expiry.
