

NOTICE

**On the initiation and conduct of an anti-dumping investigation concerning imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea, and the Republic of India**

Pursuant to the Law of Ukraine “**On Protection of the National Producer against Dumped Imports**” (*hereinafter - the Law*), the Interdepartmental Commission on International Trade (*hereinafter - the Commission*) reviewed:

– the complaint submitted by **MODULE - UKRAINE LLC** and **POLISTIL LLC** (*hereinafter — the Applicants*) regarding the initiation and conduct of an anti-dumping investigation concerning imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India (*hereinafter — the complaint*);

– the report and conclusions of the **Ministry of Economy, Environment and Agriculture of Ukraine** (*hereinafter - the Ministry of Economy*) concerning the results of the anti-dumping procedure regarding imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India.

Following consideration of the materials, the Commission established that:

- the complaint contains sufficient substantiated evidence on the basis of which it may be considered that it was submitted by a duly qualified national producer;
- the complaint contains sufficient substantiated evidence on the basis of which it may be considered that imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India may have been carried out at dumped prices, while the level of dumping margin cannot be regarded as minimal and import volumes cannot be regarded as negligible within the meaning of the Law;
- the complaint contains sufficient substantiated evidence that imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India were carried out in such volumes and under such conditions that they may cause injury to the national producer and threaten to cause material injury to the national producer in the future.

In particular, according to the complaint materials, during the period under investigation (**2022 - 2024**):

- imports into Ukraine of products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India were characterized by substantial volumes and high growth rates both in absolute terms (**4.5-fold increase**) and relative to domestic production (**twofold increase**) and consumption (**2.5-fold increase**) of like products in Ukraine;
- weighted average import prices into Ukraine of products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India jointly showed a downward trend and, beginning from 2023, were significantly lower than the average price of the

Applicants' like products, preventing price increases for like products in the domestic market that would otherwise have occurred in the absence of dumped imports;

- analysis of the dynamics of the Applicants' key financial and economic indicators demonstrated improvement in most indicators; however, profitability remained low and continued to decline;
- the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India possess significant export potential.

In view of the foregoing and pursuant to Article 12 of the Law, the Commission adopted Decision No. **AD-603/2026/441-01 dated 22 May 2026** “**On the initiation and conduct of an anti-dumping investigation concerning imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India**”, under which it initiated an anti-dumping investigation regarding imports into Ukraine of goods described as follows:

- **flat-rolled products of carbon steel, clad, plated or coated by electrolysis or otherwise**, classified under subheadings **7210 70, 7210 90 and 7212 40 of the Ukrainian Classification of Goods for Foreign Economic Activity (UCG FEA / UKTZED)**

(**except flat-rolled carbon steel products coated with tin (tinplate or electrolytic tinplate)** having a thickness of **0.14–0.28 mm** (including the thickness of the tin coating layer), with lithographed images and/or protective lacquer coating, intended for manufacturing metal (tin) food containers and packaging and supplied in sheet form with maximum dimensions of **1,000 × 1,000 mm**, classified under code **7210 70 10 00** according to UKTZED).

Documentary evidence for identification of flat products excluded from the product description shall include: declaration of conformity and quality certificate issued by the manufacturer indicating:

- manufacturer's name and/or trademark and address;
- product name;
- grade, sheet number, hardness, tin coating class;
- type of paint and varnish coating (varnish grade and number of layers) for internal and external surfaces;
- intended use of lacquered or lithographed sheet material;
- production date of the batch and shipment date;
- number of bundles and sheets in the batch;
- batch or order number.

The countries of origin of the goods described above are: Republic of Türkiye, Socialist Republic of Viet Nam, Republic of Korea, Republic of India.

**The Ministry of Economy** is entrusted with conducting the anti-dumping investigation concerning imports into Ukraine of coated carbon steel flat products originating in the Republic of Türkiye, the Socialist Republic of Viet Nam, the Republic of Korea and the Republic of India (*hereinafter - the investigation*).
